3.	M/s Construction and Farm Equipment Ltd.	Evaluation stage at which the bid was eliminated: Determination of substantial responsiveness Reason for elimination: Contrary to Section VII (3) of the bidding document (Technical Specifications), and the clarifications, which required a 2-wheel drive tractor, the Bidder offered a 4-wheel drive. This is a material deviation because, given the high fuel consumption of a 4WD, its poor maneuverability in small spaces, its high overall maintenance cost due to the more serviceable technical components, its total cost of ownership is high in the long run.
